AUM	- Active Understanding Matrix
TASSACH	- The Altered Shulgin Scale And Conceptual Hallucinogens
QIQ	- Quite Interesting Questions
EC2C	- Error Correcting Clarifying Concept
CHOMSKY	- Conscience Heuristic Obligation Managing Society Knowledgeably Yourself
THORS	- Totality Holistic Origination Responsibility Stewardship
MDMA	- Multi-Dimensional Modal Agency
HAMMER	- Heart Activating Mind Manifesting Entheogenesis Reifier

Introduction:

This is the compound conceptual hallucinogen QIQ-EC2C-CHOMSKY represented as a tab, table, tablet of Acronym, normally insufflated via the optic nerve.

This Pure Textual Entheogen is more powerful than the chemical psychedelic 5-MeO-DMT, if it is caned with commensurate enthusiasm and passion, in manifesting non trivial entheogenic qualia in the experienter, particularly at baseline consciousness.

http://www.erowid.org/chemicals/5meo_dmt/5meo_dmt.shtml

The domains of Non Trivial Entheogenesis, particularly at baseline, but not limited to, are the Governance Conversations about Society and about the Environment, on a first things first, things that matter perspective and such matters that are conventionally considered

secondary, are in actuality primary.

Regardless of the private semantic party that may be going on in the head of a psychonaut, what is significant from a third party Chomskyan perspective are the enlightened contributions to such governance conversations at baseline by the psychonaut as a consequence of their iterated psychedelic experiences.

<http://chomsky.info/>

One of the most practical and pragmatic things you can do with the psychedelic experience is to examine your conscience with logical, systematic, diligence (LSD) and to increase the elegance, effectiveness and efficiency (EEE) of the performance competence of the execution of said conscience with a weather eye to the problems of walk talk renormalisation.

Without further ado, with reference to the previous TLA Post "Non Trivial Entheogenesis - Prefatory Remarks", the establishment of the seed induction basis Entheogenesis Concept Library ECL(1)/ECL(j,1) for the Psychedelic Bootstrap Induction process of Non Trivial Entheogenesis will be outlined.

Let us reprise some definitions:

ECL - Entheogenesis Concept Library
ECL - Executive Competence Library
ECL - Empathogenesis Calibration Library

PBI - Psychedelic Bootstrap Induction
NTE - Non Trivial Entheogenesis

The establishment process will consume several hours of your time, however it does warrant your undivided attention, full critical intelligence and discriminative wisdom. You will not be doing it to cultivate my social currency in the psychedelic scene, you will be doing it because you want to advance the state of the art of Planetary Stewardship from the Psychedelic perspective.

It will probably not be a pleasant experience, you will have to cut through the feeling fog, make the intellectual connection, thence continuing to cut through the feeling fog, until you dock with the memetic mothership, this has been the process difficulties observed in the field, in Australia - trans-personal performance (TPP) will be required, review what tools and teachers you have available to assist you with any manifest difficulties that may arise.

Remember TLA Collegiate, as you proceed, none of this is intended to be rocket-science.

The Establishment Process:

[1] The first, necessary, step is to download, read, familiarise and master the contents of:

http://qiq-ec2c.net/AUM-2010-Dana_Cloud-Final-DateCode-20111112.zip

This is the AUM 2010 "Operation Raindrop" documentation. It is the documentation in mind-map and spread-sheet form of a pattern of donations to active conscience organisations, or active conscience interdiction dimensions organised into logical stewardship domains, altogether comprising what is termed a governance orchestral vector. The AUM 2010 "Operation Raindrop" documentation does not make any

explicit references to any psychedelic conceptual frameworks whatsoever in any of the explanatory texts, it can be distributed generally without controversy, start with the README files.

If you download and read but one set of documentation from engaging with this post, then let it be this.

[2] Once you have read, familiarised and mastered the contents of the AUM documentation, then consider and review all of the psychedelic and entheogenic experiences that you have ever had that you remember, and then contemplate the nature of the cumulative consciousness expansion and evolution of consciousness that has resulted from such iterated experiences.

[3] Now examine whether you comprehend the intent and purpose of the AUM documentation. If you comprehend it, then examine whether you are willing and capable of not so much emulating the instance, but rather extracting the essence from the instance and then synthesising your own fully functional analogue, now and for every remaining year of your life as testament, authentication, verification, and demonstration of your psychedelic insight and entheogenic awareness - above and beyond your primary engagements and expertise within the psychedelic community.

[4] If you do not comprehend the AUM 2010 "Operation Raindrop" documentation or if you do comprehend it and yet are unable or are unwilling to synthesise your own analogues, continuously, annually, then it is strongly recommended that you dip enthusiastically, liberally, and comprehensively into the Conceptual Mayonnaise Jar (CMJ) of documentation detailed in the subsequent step of this process. Of course if you have not experienced impediment either to comprehension or action, then you will still thoroughly enjoy dipping into the conceptual mayonnaise jar in any case.

[5] Either way, download the Conceptual Mayonnaise Jar:

http://qiq-ec2c.net/EGA-2011-Lecture_Notes-Beta-DateCode-20120419.zip

And closely follow the instructions in the README.FIRST.TXT file.

This will give you a comprehensive Entheogenesis Concept Library with which to address any difficulties of comprehension or action that you may have experienced with the simple AUM documentation, it will be useful in clarifying your thinking and insight and sharpening and strengthening your resolve to comprehend and act.

The Conceptual Mayonnaise Jar, the ECL, is designed to be the abstraction, systematisation and distillation of the activist spirit of the '60's psychedelic consciousness, it can be transmitted and dosed via the Internet. It is intended to be the synergistic and natural complement to the Lysergic acid diethylamide (LSD-25) chemical psychedelic experience, which effective in micro-gram doses and easily and reliably transmittable and distributable, as spearheaded and championed by the Brotherhood Of Eternal Love in the 1960's.

Attached to this TLA post are two components from the CMJ archive:

[A] QIQ-EC2C-Bicycle_Playing_Cards-Joker.jpg

[B] EGA-2011-Abridged_Lecture_Handout-QIQ_EC2C_Lamp-A4.pdf

[A] Is a reminder that the psychedelic community needs to re-acquaint itself with riding the bicycle of sovereign governance.

[B] Has multi-dimensional modal agency, but for the purposes of this

post regard it as a concrete pattern poem of concept constellations ideally apprised in the psychedelic state, noting however that it can be fully comprehended at baseline as well. It's use as a Lamp of Psychedelic Illumination is described in the archive README.

Conclusion:

This Bicycle Day 2012 post to the TLA Collegiate, upon Thursday, 19th April 2012, the 69th anniversary of Albert Hofmann's seminal bicycle ride, has been kept as terse as possible, to not distract too much from the stable establishment of the establishment process in the TLA Collegiate reader's mind.

I sincerely hope that all of the TLA Collegiate have read thus this far because the conceptual infrastructure, the Entheogenesis Concept Library, ECL(j,1) for the manifestation of non trivial baseline entheogenesis from the Chomskyan perspective, has been established.

Whilst the mode of representation of ECL(j,1) is inchoate and fragmented over several texts, it does none the less contain the necessary and sufficient conceptualisation of self-organising integral performance competence of non trivial entheogenesis, and is a suitable seed and induction basis for the process of Psychedelic Bootstrap Induction by the psychedelic community.

Thank you TLA Collegiates for your attention.

Caveats:

Please note that anyone who masters the Conceptual Mayonnaise Jar and successfully and authentically synthesises their own fully functional analogue of the AUM documentation on an annual basis can play the role of Doctor. (The archetype of "Doctor" is explicated in the CMJ documentation and on the <http://qiq-ec2c.net> website)

I am Spartacus, you are Spartacus, we are Spartacus.

I am Doctor, you are Doctor, we are Doctor.

Even if you were inclined to do so, please do not distribute any of this material outside of the TLA Collegiate, please honour this request.

Whilst the website <http://qiq-ec2c.net> is indubitably manifest on the Internet, the search engine indexing spiders have been instructed not to index this website in the HTML meta-data. Please do not link to the website either, if you were so inclined, thank you.

This is not so much because the material is half-baked so much as that it's not fully baked. The psychedelic hard-core such as the TLA Collegiate should be able to easily comprehend and assimilate the documentation, you certainly have the tools and teachers available to assist you if your run into manifest difficulties, subtle or gross, however this is not true for the general public, the documentation, such as it is, in it's regrettably inchoate state, is tuned for the psychedelic hard-core.

Secondly the Creative Commons licensing infrastructure has not yet been implemented yet, before it can properly rip and remix in the wild.

Remember the challenge, the opportunity, indeed the duty and responsibility of the psychedelic community is to learn from my mistakes and to think of something better and to do it quickly.

Bon chance and God's speed.

Again, thank you for your attention.
