/* Standard Header: This is an excerpt from the on-going real-time here-now science-  
fiction story "homomorphism", the story is devoid of plot, characters and themes, which  
have been totally outsourced to the milieu of the readers, what remains is merely some  
object-oriented linguistic super-glue. Just because the story is called "homomorphism",  
it is neither asserted nor warranted in any manner that the story is homomorphic to the  
real-time reality of the theorised readers. */

This Bicycle Day [1], 2021, chapter, is, clarifying commentary on the Bicycle Day, 2020, chapter, communiqué, and transmission, the subject of which was the purpose of psychedelics. [2]

The compact, minimalist, kernel, science-fiction story, conceptual bracketing, and semantic framework, "Homomorphism" (AKA, also known as, HAL - the Homomorphism Abstraction Layer) is, principally, from this particular authorial instantiations view point, to enable the stable articulation and documentation of certain "Technical Notes on Consciousness" (TNC), that would otherwise instantaneously evaporate from the attention and memory of the mind perceiving and apperceiving the TNC, so contained in the HAL, regardless of how many flight sessions and flight hours, and how much experience, expertise, and erudition, a serious and sincere, card-carry and committed, dedicated, repetition effendi, psychonaut, or entheonaut, may have clocked up over their lifetime.

The HAL (Homomorphism Abstraction Layer) is not meant to be a "riddle wrapped in a mystery inside an enigma", or otherwise Escherically incomprehensible, however, it can operate as a form of "conceptual encryption" to attenuate the willfully ignorant from making a nuisance of themselves, and primarily, in the particular, it is a "semantic refrigeration unit (SRU) for hot entheogenesis". The PSI (Psychédélique Système international (d'unités)) dimensional unit for the measurement (Thermometry) of the "Numinous Heat", or "Numinous Temperature", of "Gödelian Logical Entheogenesis" (GLE), is the Gödel, and the objective of the HAL is as an SRU, where such articulation artifacts as TNCs, related to GLE, and to TLA (Totality Logical Apperception), can be stored safely, stably, and securely, for perception, and apperception, at a stable numinous temperature of zero degrees Gödel (0°G).

And what could be termed the "pharmaceutical grade" ISO-POP (ISO Standard Purpose of Psychedelics), in the full generality of absolute consciousness, cybernetically, and m-th order cybernetically, is very hot Gödelian Logical Entheogenesis, indeed, as is any extant technical note on consciousness that asymptotically, approximates, and adumbrates, such - such as this excerpt from the Bicycle Day, 2020, communiqué transmission:

:

"The purpose of psychedelics, or psychedelic phenomena and qualia, in the full generality of absolute consciousness, is to render that which is invisible, visible, and to render that which is opaque, transparent, enabling aware conscious actors and agents,

in consciousness, to exercise the parental consciousness archetype in the pursuit of the policing of reality, in both the gross and the subtle, both the material and the higher, consciousness, in which the actors and agents are embodied and embedded.

And one of the least trivial and most meaningful policing actions by aware conscious actors and agents, either in the psychedelic state or as baseline state entheogenesis, is the decommissioning, dismantling, and dissolution, of eternal, permanent, and temporary, relative advantage and structural theft and structural injustice systems, both in systemic, material, gross, reality, and also in meta-systemic, non-material, subtle, reality.

Secondly, the minimisation and decommissioning of intentional, volitional, discretionary, negativity and suffering generation, and social and environmental damage, that is a consequence of those actors, agents, entities, and intelligences that seek to cultivate structural theft relative advantage systems, both in gross, material, reality and also in the subtle realms."

:

It has been observed by this authorial instance, over time, over the decades, that strong, non-trivial, definitions of the purpose of psychedelics tend to be unstable in the minds of psychonauts and entheonauts, and evaporate rapidly from their attention and memories, regardless of however experienced, dedicated, disciplined, and sincere, the psychonaut or entheonaut may be - whereas, denatured, or weakened, definitions of the purpose of psychedelics, tend to be more sustainably stable, however, even so, ever vulnerable to evaporation from memory and attention, but amenable to refreshment of both, in their denatured, weakened, form.

The well established concept of "CosPlay" (Costume Play), the reader will already have walk in wardrobe, Prêt-à-Porter, sorted, automatically and effortlessly, by the nature of the Homomorphism science-fiction story itself, however, the cognate concept of "CeptPlay", or "ConPlay", (Concept Play) is something the diligent reader will have to continuously work and practice at.

With reference to the attached Bicycle Day, 2021, illustration which is a metaphor-mashup of the Donegan Optical Company "OptiVisor Man" and the Nuline HR200G pharmacy grade refrigeration unit, with transparent glass doors, you can view and reconnoitre the proximate ISO-POP TNC, through the semantically insulated, transparent, meta-conceptual, glass doors, or you can engage one of the calibrated chemical lenses from the Alexander "Sasha" Shulgin Spectral Sunshine Spectacular Spectacles Apothecary Repository (PiHKAL, TiHKAL, & "QiHKAL"), to risk reviewing the ISO-POP, directly, outside of the HAL SRU, or alternatively, and wisely, safely, securely, and stably, through the doors of the same, at a controlled numinous temperature of zero degrees Gödel (0°G).

Generally speaking, however, from an occupational health and safety (OH&S) perspective, it is recommended, that the serious, and sincere, psychonautical and entheonautical readers, should, unless they really know what they are doing, to read and regard that ISO-POP proximate definition of the purpose of psychedelics, at baseline, with the transparent, meta-conceptual, glass, "doors of apperception" of the HAL SRU remaining securely shut, so that both the consciousness of the concept, and conscience of the concept, can remain stable in their minds.

One should also bear in mind, as a "Padawan pro-tip", that sane, safe, and survivable, investigation and exploration of any such strong, non-trivial, definitions of the purpose of psychedelics is best expressed and executed, indirectly and derivatively, as baseline entheogenesis - horizontal, peer to peer (P2P), social, collective,

intelligence, and collective, intelligent, agency, cultivated and practiced within the psychedelic sub-cultures, by psychonauts and entheonauts, amongst themselves, in various levels of aggregate topological networking.

The following documentation set, provides a simple, self-replicating, meme, that can provide a foundation method, practice, discipline, ethological norm, for the emergence of non-trivial baseline entheogenesis, as a emergent property of cultivated social, collective intelligence, and collective, intelligent agency, within the psychedelic sub-cultures:

Bear in mind, that it is merely example, and not exemplar, and that the "QIQ-EC2C-CHOMSKY" web resource itself, for myriad, compelling, reasons, both exoteric and esoteric, is, sadly, a decade behind, in updates and necessary upgrades, to the documentation resources - it is best a case, at this very late stage of proceedings, to make from it what you will, rather than try to make of it what you will.

Given the dodeca year deadlines of deadlines, to arrest the ecocidal planetary scale heating, announced on the 8th of October, 2018, by the IPCC (Intergovernmental Panel on Climate Change) special report on the impacts of global warming of 1.5 °C, time has been of the essence, for quite some time:

Finally, if the collaborative, reader, character, author, of the science-fiction story Homomorphism, considers the ISO-POP definition of the purpose of psychedelics, currently so proximately defined, to be denatured, or inadequate, then with the transparent, meta-conceptual, glass, "doors of apperception" securely closed, the HAL SRU can be also regarded as a Hephaestusean "Hot Cell" Forge, for the operations of refining, purifying, annealing, and strengthening the proximate ISO-POP definition of the purpose of psychedelics - with duly diligent, prudential, care and caution - bearing in mind that non-trivial entheogenesis in the full generality of absolute consciousness, is non-trivial indeed, in cybernetic consequence, should it become an ethological norm in the psychedelic sub-cultures.

Serious and sincere psychonautical and entheonautical reader, actor, author, agents, so inclined: Bon chance, and bom chance, and at entheonauts, warp, speed, at whatever level engagement of these texts.

Note: This has been a yet another, rough and ready, experimental chapter, articulation utterance manifestation (AUM), of the science fiction story, "Homomorphism", in acknowledgement of "Bicycle Day" 2021" deadline, it is a back of a beer coaster chapter with table-napkin addenda, unpolished disquisition, at best - at worst: incomplete,

incomprehensible, and incoherent (but not illogical) - however, it is a vast improvement on silence; as always -

/\* Standard Trailer: This has been an excerpt from the real-time, here-now, ongoing, occasional science-fiction story "homomorphism", it is neither warranted nor asserted that the story is, in fact, homomorphic to the real-time realities of the putative reader, if in doubt, you are hallucinating. \*/
